"Yes! They landed today," the man said.

Larry stood there listening to the welcome strains. One arm he had flung about Ethel. And the other he waved above his bandaged head.

"More of our boys off to the front!" he exulted. "And do you mind what they're playing, my darling?" he asked her. It was "Tipperary."

The wounded men caught up the song.

Captain Redmond smiled happily as the soldiers shouted the words; and as they reached a certain passage of the chorus he looked down at Ethel with a world of tenderness in his eyes and held her closer.

The English Tommies were singing, "The sweetest girl I know!"

THE END.

places have not been explored and are covered with debris. Some fine stones with carvings are still standing and many have been removed to the National Museum of Mexico City. The sculptures indicate that the Maya civilization must have extended to this part of the country.

#### Fort at Guiengula.

The ruins of Guiengula on the Isthmus of Tehuantepec show the existence of a big fort which was used in the battles between the Mexicans and the Zapotecs. This fort was built on the top of a mountain, and contains two pyramids of stones, having stairways leading up to the tops. Remains of temples, chambers, trenches, and terraces can also be distinguished.

The ruins at Achiutla consist of courts, walls, mounds, and terraces. Achiutla was the sacred city of the great Mixtec nation, their country being called Mixtecapam before the Spaniards arrived in Mexico. An extraordinary number of pieces of pottery is found everywhere in this village, which is still inhabited by the Mixtec Indians or Mixtecos.

## **EDDIE CANTOR.**

**In the Ravishing Revue "The Midnight Rounders" at the Majestic Theatre. The Sensation of Boston.**

Eddie Cantor and his blushing, breezy, Bacchian beauties, "The Midnight Rounders," with Nan Halperin, begins the last three weeks at the Majestic Theatre, Monday night, January 31st Capacity houses have established themselves as the rule for the run of this romping Rabelaisian, ondelay of fashion, fad and fair females. In speed it has lightning tied to the starting post; while its myriad colors and beauteous damsels are the despair of the rainbow. Such an unrestricted riot of fun, beauty, wit and melody the world has not seen since Jupiter set the fashion for blue Sundays by prohibiting jazz and the shimmy.

Cantor has a number of new songs laden with lyrics ludicrous and lawless, which he puts over with all the pep for which he is famous. His surrounding company is the biggest and best assembly of laugh-hounds, and celestial beauty ever assembled this side of the Styx. All previous records of attendance and satisfaction have been broken by this raptuous revelation in the revue line. It has established itself as the fastest, funniest, furore of headliners, hits, harmony and heavenly houris that ever visited a mortal town in times of stress. Not since the Viking poet wrote his description of Valhalla in its splendor have such scenes been recalled to mortal mind.

Cantor, primed with new and novel ditties dealing with damsels, dress, and divers day-topics leads his aggressive aggregation of amusers at break-neck speed. His fellow players form an invincible and all-conquering company of comedians, comediennes, chanteurs and courageously caressing cherubim

It sat back from the street, so called, a jor all tangled over with wire-cactus, mesquite and cacti. She counted the different kinds four varieties crowded around the steps leading up to the front door, as if they wanted to come in out of the arid loneliness.

Though dignified by the name bungalow, it looked more like a farmer's granary, with the windows covered with pieces of old carpaulin, cleated fast so no one could get a glimpse of the inside.

Some one else, evidently, had been as curious as was Mary Minthorn, for a jagged hole was cut in one torn shade, but try as she might, her eyes could not penetrate the darkness far enough to distinguish the meager outlines of furniture. She had too much regard for the property of others to make the hole bigger, so she would bring her book or a bit of handiwork, and perched upon the top step, amuse herself speculating upon the owner of the mysterious and lonely bungalow.

"A lunger like me, no doubt," she mused piteously, "who has perhaps gone away cured or been gathered to his fathers. I wonder," she said half aloud. "why I always think it is a man's house? It's set on high blocks as if the owner was afraid the rattlesnakes might crawl into it; maybe it's a woman lunger's home? Well, if it is, I wish she'd let me live in it." And she arose and tried to get a peep at the interior.

She had asked many people around the scattered village about the owner, but no one seemed to know, and the nearest neighbors were Mexicans who merely shook their heads with a "No savvy" when interrogated.

The bungalow still held a romantic interest for Miss Mary Minthorn, A. M., but her visits grew less frequent though she would now and then drive by from work, and slowing up, look speculatively at the lonesome shack.

It seemed to have a kinship to her. She had come to Llano Estacado to

men have met German craft and cunning with British craft and cunning.

Until this week the public has known nothing about the mystery ships, known in the navy as the "Q" ships, although several officers, notably Capt. Gordon Campbell, have been decorated for their services on these vessels. Details now can be made public, as the Germans are becoming aware through bitter experience of the methods used against them.

How a "woman and baby" accounted for a U-boat is told by the correspondent. The submarine ordered a vessel to surrender and fired a few shells at it. The boats then left the ship, having on board a woman who ran up and down the deck with a baby in her arms, as if mad.

The U-boat came alongside the ves-

Old Colony Gas Co.:

Honorable Board of Selectmen,  
Hull, Mass.

Dear Sirs—In accordance with the vote passed by the Directors of this company, we hereby petition your honorable Board for the right to lay mains in the streets of your town and to distribute gas to its inhabitants.

Very truly yours,

OLD COLONY GAS CO.,

By E. M. Farnsworth, Jr.,

Vice-President.

had 23 acres of wheat which gave a yield of 47 bushels to the acre.

Well, then, near Gleichen, Alberta, D. H. Engle of Humboldt, Iowa, owns a quarter section of land. This land was rented so that Mr. Engle should receive one-third of the crop, and this gave him \$612.65, his net rental for the crop, and there was only 80 acres in crop.

Scores of reports give yields fully as large as those given above. A large field of spring wheat near Lethbridge averaged 69 bushels, another 59 and a third 56 bushels per acre. On the Jail farm at Lethbridge 25 acres of Marquis wheat yielded 60 bushels to the acre and weighed 67 pounds to the bushel. A test lot of one acre of Marquis wheat when threshed yielded 99 bushels and a 30 acre field averaged 60 1-3 bushels. This farm had 200 acres under crop to Marquis wheat and it is expected the average from the whole will exceed 50 bushels.

In all portions of Saskatchewan and Manitoba, as well, remarkable yields are reported, many large fields showing averages of from 40 to 55 bushels per acre.

When the story of this year's threshing is completed some extraordinary yields will be heard of. One farmer west of Unity, Saskatchewan, threshed 30,000 bushels of No. 1 northern from 200 acres and such instances will not be isolated.

Considerable of the wheat grown in Western Canada is finding its way to the markets of the United States, not

FRED'K H. SYLVESTER

REAL ESTATE

and

INSURANCE

TO THE HONORABLE BOARD OF SELECTMEN AND CITIZENS OF THE TOWN  
OF HULL:-

I appear before you this evening in the capacity of President of the Hull Light Company to make an appeal to you for a location for the laying of gas mains in and along Nantasket avenue, and the streets that run from Nantasket avenue, making a distribution system covering the whole town of Hull.

The Hull Gas Company was organized on August 3, 1915, and held its first meeting at the office of Moore & Co., 12 Pemberton Square, Boston, Mass., August 3, 1915, and are now ready, providing they are granted a location for their mains, to lay the mains and supply gas to the town of Hull.

As to the cost of gas to the consumers, we should say that at the present time it is almost impossible to say just what the price should be, but as near as we can estimate, it would not be over \$1.50 per thousand feet. In order to bring the revenues up to meet the operating expenses and interest on the indebtedness we may have to make a minimum charge to summer users of gas of somewhere in the neighborhood of \$12.00 per year. That would bring the year round takers on an average of 1/5 dollar per month for gas.

We would put in steel mains the same as are put in by all other gas companies of this kind. We would also put in welded joints so as to make the leakage as small as possible, and we would lay the whole length of Nantasket avenue as far as the breakwater at Point Allerton on both sides of the street; that is put in two mains so that Nantasket avenue would never have to be disturbed on account of cross connections or service pipes. In that distance we would probably put in twelve cross connections, properly gated, so as to feed either main from the other in case any section of either one of the mains was out of commission for a short period of time.

We would lay a main on the right hand side of the road going towards Hull from the breakwater at Point Allerton to the Hull Village, as there are no buildings of any consequence on the left hand side of the street. If the Selectmen prefer we would lay two mains through to Hull.

From the Hull Village to the railroad crossing at Pemberton we would lay mains on both sides of the street so as not to disturb the road bed; and from the railroad crossing to Pemberton we would lay a main on the right hand side of the street

We will give a bond in the sum of \$10,000 to save the town harmless for any damages that might come to it while the work is under construction or after it has been constructed, for any damages that might be caused by carelessness or negligence of the gas company

If we are granted this location we would start the work in the early spring and get the work on Nantasket avenue out of the way before the summer travel got to its height, and would finish the side streets in the summer and fall, having the gas turned on in the town sometime in the latter part of the summer or early fall.

We would make a contract with the town that they could take the works over at any time by a decision of three disinterested parties, at a price they might agree upon; one of the parties to be chosen by the town, one by the company and the other by the two interested parties. If the interested parties cannot agree the third party to be chosen by the Chief Justice of the Supreme Court.

That is about all I have to say in regard to this proposition, and any questions that might be asked I shall be pleased to answer them if I can.

No remonstrants appearing, the meeting closed, and the matter was taken under advisement by the Selectmen.

James Jeffrey  
Chair of Board

## REPORT OF COMMITTEE ON ELECTRIC LIGHT SITUATION IN THE TOWN OF HULL

To the Voters and Tax Payers:—

Pursuant to a vote passed at a public hearing, held November 3, 1915, the Selectmen appointed eight other citizens to act in conjunction with themselves in investigating the electric light situation in the Town and to report upon feasible and economical plans for the future.

After careful and painstaking consideration of all available facts and figures your committee finds three possible solutions:

FIRST.—Continuation of generating and distributing as at present.

SECOND.—Sale of generating and distributing plant as per proposition of Messrs. C. D. Parker & Company.

THIRD.—The purchase of current from an outside company to be distributed by the Town over the Town's own pole lines.

These three plans are taken up in the order mentioned above and briefly explained in the remainder of this report and are based on a 17 cent rate to summer consumers and a 14 cent rate to yearly consumers.

### PLAN ONE

#### OWNED AND OPERATED BY THE TOWN

Examination of present conditions leads the committee to believe that the annual appropriation with no additions to the plant would continue to be about \$7,000. With the proposed new building and the unit which must be added if manufacturing is continued, that sum will be increased by \$4,000, making a sum total of \$11,000. This sum should be considered the cost of the street and municipal building lighting.

Whereas the committee does not deem it necessary to criticise the present management of the Electric Light Department it believes the experiences of the past should lead to some large savings which would materially reduce the above named appropriations.

### PLAN TWO

#### SALE OF TOWN'S ELECTRIC LIGHT SYSTEM TO C. D. PARKER & CO.

The committee considers that the voters and tax payers should receive C. D. Parker & Company's final proposition in substantially the form presented by them, which is as follows:

DEAR SIRS: Confirming our conversation held with you, we will add to our printed proposition the agreement that we will pay the Town of Hull an additional sum of money for the physical property of the Hull Electric Light Department in recognition of the franchise value said sum to be 15 per cent. of the present value of the physical assets as determined by appraisal. This would make our total payments:

(1) Full value of current assets as of June 30, 1915, determined by appraisal.

(2) Full value of physical assets as of June 30, 1915, determined by appraisal.

(3) 15 per cent. of full value of physical assets as of June 30, 1915, determined by appraisal; also full net value of any additions to all assets made since June 30, 1915.

(NOTE)—Your book values on June 30, 1915, were as follows; we have no reason to believe these will not represent the present value.

Physical property	\$115,311 86
Add 15 per cent. as agreed above	17,296 78
Book value of current assets	44,062 54
Total ,	\$176,671 18
(Plus net increase since June 30, 1915?)	

This will enable your Town to pay all Hull Electric Light Department notes and all debts, as shown by your books June 30, 1915 . . . . . \$76,879 30

This will leave you with a balance for your fund of . . . . . \$99,791 88  
which could be invested in Town of Hull and Commonwealth of Massachusetts notes and bonds to net four per cent. per annum, from which your Electric Light Department would receive . . . . . 3,991 68  
net at four per cent. each year.

This will make the only annual appropriation for your Hull Electric Light Department for lighting your streets and Public Buildings \$3,551.15 per year. No appropriations, tax levy or borrowing will be needed for excess expenditures due to operating losses, extensions, additions or depreciations, as the annual income of your electric department if our proposition is accepted will be

(1) The above amount per year . . . . .	\$3,551 15
(2) Interest at four per cent. on \$99,791.88 per year . . . . .	3,991 68
(3) Taxes (\$17.30 per \$1,000 on \$159,384.40) . . . . .	2,757 17

Total . . . . . \$10,300 00

Total and only expense of electric light department for street lights and public buildings . . . 10,300 00

We are making you a bonafide contract to light the streets of the Town and Public Buildings at a net cost to the Town of \$3,551.15 per year, guaranteeing to the Town that the Town will not have any net cost in any form above \$3,551.15 for the same service or to borrow, levy taxes or make expenditure of any kind in the future on the plant or lines or any part of the Electric Light Company property.

### PLAN THREE

#### PURCHASE OF ELECTRICITY BY THE TOWN

The Town of Hingham buys its current from the Weymouth Light and Power Company at the price of nearly four cents per (kilowatt hour) and distributes it to its yearly consumers, who comprise eight-ninths of total number of consumers, at 10 cents per kilowatt hour. This led your committee to believe that a similar plan should be considered in its report. Working along these lines it was found that our Town could buy electricity for 3 cents per kilowatt hour and that from carefully estimated costs of distribution based on the past year it would be necessary to appropriate from the taxes about \$3,000 to meet all expenses.

### SUMMARY

In summarizing it would appear that by

PLAN ONE—The Town would find it necessary to appropriate . . . . . \$7,000 00  
if new building and unit are not added, or . . . . . 11,000 00  
if new building and unit are added, or much less if above mentioned savings in operating are practical.

PLAN TWO—The Town would have to appropriate . . . . . 3,551 15  
and more each year as number of street lights and municipal building lights increased.

PLAN THREE—The Town would have to appropriate . . . . . 3,000 00  
and less each year as income increased and sinking fund and interest requirements decreased.

It appears that plan three, which provides for retaining the electric light property and purchasing current from an outside company, offers to the Town a lower price for its street and municipal building lighting and makes the best promise of material reductions in rates to the private consumers. In view of these conditions your committee unanimously recommends the adoption of plan three.

To the Honorable Board of Selectmen and Citizens of the Town of

Hull:-

I appear before you this evening in the capacity of President of the Hull Gas Company to make an appeal to you for a location for the laying of gas mains in and along Nantasket Avenue, and the streets that run from Nantasket Avenue, making a distribution system covering the whole of the Town of Hull.

The Hull Gas Company was organized on August 3rd, 1915 and held its first meeting at the office of Moore & Co., 12 Pemberton Square, Boston, Mass., August 3rd, 1915, and are now ready, providing they are guaranteed a location for their mains, to lay the same and supply gas to the Town of Hull.

As to the cost of gas to the consumers, we should say that at the present time it is almost impossible to say just what the price should be, but as near as we can estimate it, it would not be over \$1.50 per thousand feet. In order to bring this revenue up to meet the operating expenses and interest on the indebtedness we may have to make a minimum charge to summer users of gas of somewhere in the neighborhood of \$12.- per year. That would bring the year-round takers on an average of 75 cents per month of gas.

We would put in steel mains the same as are put in by all other gas companies of this kind. We would also put in welded joints so as to make the leakage as small as possible, and we would lay the whole length of Nantasket Avenue as far as the breakwater at Point Allerton on both sides of the street; that is put in two mains so that Nantasket Avenue would never have to be disturbed on account of cross connections, or service pipes. In that distance we would probably put in twelve cross connections, properly gated, so as to feed either main from the other in case any section of either one of the mains was out of commission for a short period of time.

We would lay a main on the right hand side of the road going towards Hull from the breakwater at Point Allerton to the Hull Village, as there are no buildings of any consequence on the left hand side of the street. If the Selectmen prefer, we would lay two mains from there to Hull.

From the Hull Village to the railroad crossing at Pemberton we would lay mains on both sides of the streets so as not to disturb the road bed; and from the railroad crossing to Pemberton we would lay a main on the right hand side of the street.

We will give a bond in the sum of ten thousand dollars to save the Town harmless for any damages that might come to it while the work is under construction or after it has been constructed; for any damages that might be caused by carelessness or negligence of the Gas Company or the Contractors.

If we are granted this location, we would start to work in the early Spring and get the work on Nantasket Avenue out of the way before the summer travel got to its height, and would finish the side street in the summer and Fall, having the gas turned on sometime in the latter part of the summer or early Fall.

We would make a contract with the Town that they could take over the work at any time by a decision of three disinterested parties, at a price they might agree upon; one of the parties to be chosen by the Town, one by the Company and the other by the two interested parties. If the interested parties cannot agree, the third party to be chosen by the Chief Justice of the Supreme Court.

This is about all I have to say in regard to this proposition, and any questions that might be asked, I shall be pleased to answer them if I can.

The remonstrants appearing the meeting Board and the matter given taken  
under advisement by the Selection.

James Jeffrey

moved away to the seaports or else  
be brought to Manchester.

Manchester, getting this idea mainly  
to its head, organized its Ship Canal  
Company, and set about digging the  
canal. The corporation found  
expense much greater than had  
been anticipated, and the city of Man-  
chester took \$25,000,000 of stock in the  
company. To the present time some-  
thing over \$50,000,000 has been invest-  
ed in the canal and in the development  
of the Manchester dock and warehouse  
district. The city nominates 11 of the  
directors of the company.

doubt if anywhere in the world  
there is so complete an illustration of  
modern efficiency in dealing with trans-  
portation as at Manchester. This is  
so because the whole thing was done  
once; done as a unity. The canal and  
docks and jetties were fitted into  
the whole situation in a scientific  
way; railroads and warehouses were  
provided as part of the general  
scheme. Factory districts were laid  
precisely where they would be most  
easily served either by water or by

### PROPOSAL

---

#### For the Removal of Garbage, Ashes and Waste Material.

Sealed proposals for the collection and removal of garbage, ashes and waste material are invited and will be recovered until Saturday, April 17th, 1920 at three o'clock P. M. at Police Headquarters, Atlantic Avenue, Nantasket.

The town is divided into four districts, and proposals will be received from any person or party for one or more districts, the proposals for any other district to be separate from the proposal for any other district and no proposal to include more than one district.

Each proposal must be enclosed in a sealed envelope, with a certified check for \$200 for each district, payable to and to become the property of the Town of Hull if the proposal after acceptance is not carried out.

Specifications giving the boundaries of districts, the character of the contract and bond to be furnished, and other necessary information may be had upon application to the Chairman of the Board of Selectmen, Clarence V. Nickerson, Main Street, Hull.

The right is reserved by the undersigned to reject any or all proposals, or to accept any proposal, if the undersigned deem it for the best interests of the Town so to do.

CLARENCE V. NICKERSON,  
JOHN SMITH,  
JAMES JEFFREY,

Selectmen of Hull.

and properly elected representatives of the people, the governments were accompanied by threats of general strikes if they were not acceded to. This step is an innovation; it is revolutionary.

The working men are citizens and have a voice in the government equal with all other citizens. After the people have selected their representatives the men chosen should be responsible to all of the people without regard to class or station. A government by one portion of the people is autocratic. Government of the people, for the people, and by the people, means all of the people. The effort on the part of a minority in the labor movement, who challengingly call themselves socialists, to dictate to the state, representing all of the people, is an attack upon democracy. If successful it would destroy the state and leave the great majority of the people, including the workers, less free than they are now. What sane man, whether he is a working man or not, is in favor of minority government?

### **Demands Hard to Understand.**

I witnessed many demonstrations in Europe under the red flag, in which the leaders demanded three things from the government.

First, they demanded the release of all the men in jail who were held for political crimes. These included men found guilty of sedition and treason during the war. I cannot understand this demand. Why should men be released from jail who sought to stab in the back the men who went to the trenches to fight and die for freedom? I should much prefer to see all of the burglars released. If I am compelled to choose between the traitor and the burglar, I will have no trouble in mak-

After a short social hour, an entertainment was given, under the leadership of Miss Grace Mitchell, for three years chairman of the Entertainment Committee. A clever Miss, a pupil in Miss Mitchell's school, gave imitations of Harry Lauder and received much applause. Readings and a sketch, "The District Skule," with an all-Dorothy Bradford cast, including the Skule Committee, rounded out a very pleasing program. Mr. Downey, "skule committee man," made a very good speech, and Sisters Bickford, Downing, Ahearn, Jones, Doe, and Brothers Doe and Godfrey, took part in mirth-provoking style. The letter containing the news of the death of Mrs. Carroll was sent by mistake to Attleboro.

Kittie, wife of Captain Allen Carroll, passed away at her home in Roxbury, April 17th. She was well known here, having spent many years of her life with her sister, Mrs. W. K. Rathburn, and was beloved by all who knew her, for her genial manner and sunny disposition. Interment was at Fort Hill Cemetery, Hingham.

The rails of the Eastern Mass. Street Railway, laid to Sunset Point, and very little used, are being taken up and laid on the main road here, in place of well-worn rails.

Alexander's Lunch Rooms, quality first is the motto.

Mr. Stearns has returned from the South and we expect to see something doing at Hotel Nantasket soon.

formances, and so great is the appeal and the fascination of the screen play that seats have been reserved far in advance. Next week is positively the final week.

"Passion" introduces an actress new to Boston and to most of the United States. She is Pola Negri, the star whose beauty and wonderful dramatic ability have become famous in every city in Europe. New York theatregoers who saw the film "Passion" acclaimed Pola Negri the greatest emotional actress ever seen on the screen in that city. The players who support Pola Negri in "Passion" are stars of almost the same capability as Mademoiselle Negri, and the great crowds, numbering 5000 persons, who appear in the mob scenes, are all wonderful screen players.

The romance presented in "Passion" is one of the most fascinatingly interesting of all romances recorded in history. It shows the meteoric and brilliant career of a little milliner's apprentice, who ascends from a place most humble to a place as the ruler of the king and the leader in the revels of a pleasure-loving court.

Selectmen of Hull}

Voted That the following order be adopted.

In Board of Selectmen of the Town of Hull.

March 22, 1921.

Ordered, That on the petition of Theodore K. Guth and others to the Board of Selectmen of Hull petitioning that the said Board of Selectmen cause to be relocated the boundary line on the Westerly side of Hantasket Avenue opposite the residence of John F. Fitzgerald so as to widen said avenue at that point notice having been given as required by law and a public hearing having been held on the eighth day of February, 1921, and the said Board of Selectmen having relocated and widened said Hantasket Avenue as prayed for, and said relocation and alteration with the boundaries and measurements of the way having been filed in the office of the Town Clerk on the twenty-eighth day of February, 1921, and not less than seven days thereafter, to wit, the twelfth day of March, 1921, having been accepted by the Town at a Town Meeting duly called and notified, and it being necessary to acquire land for the purposes of said highway as altered and relocated, the Board of Selectmen of the Town of Hull, on behalf of said Town of Hull, by virtue of the provisions of statute in that behalf

made and provided, for the purposes of a public highway take and do hereby take the lands in said Hull hereinafter described and such rights and easements therein as may be necessary for the use thereof for the purposes of a public highway as aforesaid, said lands being shown on a plan entitled "Plan of proposed alteration in the Westerly line of M antasket Avenue opposite the intersection of Point Allerton Avenue, Hull, Mass.", February, 1921, Walter B. Foster, C. E., filed in the office of the Town Clerk in said Town of Hull, a copy thereof is to be recorded in Plymouth County Registry of Deeds with the records of this taking, said lands being supposed to belong to Mary J. Fitzgerald, of Boston, Massachusetts, and being bounded and described as follows, Viz: Beginning at a point in the Westerly line of M antasket Avenue, to be marked by a stone bound, bearing North  $2^{\circ} 30' 0''$  West, (magnetic declination  $13^{\circ} 9' 0''$  West), from the first stone bound South of the one marking the angle in the line of M antasket Avenue as it existed prior to this taking, opposite the Southerly line of Point Allerton Avenue, and eighty-one and fifteen hundredths (81.15) feet distant therefrom, thence running on a curve to the left of a radius of one hundred forty-one and ninety-eight hundredths

(141.98) feet through land of Mary J. Fitzgerald two hundred thirty and eighty-two hundredths (230.82) feet to a point in the line of said Nantasket Avenue as it existed prior to this taking, to be marked by a stone bound, thence running Easterly, Southeasterly and Southerly by the line of said Nantasket Avenue as it existed prior to this taking to the point of beginning; containing twenty-seven hundred and ninety-seven (2797) square feet. For a further identification and more particular description of the land hereby taken reference is made to said plan hereinbefore referred to and made a part of this description.

And this Board determines that the said Mary J. Fitzgerald sustains damages in her property to the amount of eight Hundred thirty nine  $\frac{1}{2}$  dollars by the taking for and construction of said public highway as aforesaid, and awards to the said Mary J. Fitzgerald said amount therefore.

No trees upon the parcel taken or structures affixed thereto are included in this taking, and the owner of the parcel taken is allowed sixty (60) days after the date of this order to remove the same.

No betterments are to be assessed for the improvements for which this taking is made.

In Board of Selectmen of the Town of Hull  
March 21, 1922.

Ordered,

Whereas on the petition of Henry J. Stevens and others to the Board of Selectmen of Hull petitioning that the highway known as Nantasket Avenue and the way known as Allerton Avenue be altered at and near the intersection of said ways by widening said Nantasket Avenue on the Easterly side thereof and by widening said Allerton Avenue on the Southerly side thereof along and adjoining the property owned or occupied by Cora B. Weston, notice of the intention of the Selectmen to alter said highway and said way has been given as required by law, and a public hearing held on the fourteenth day of February, A.D. 1922, and whereas the said Board of Selectmen have altered and widened said Nantasket Avenue and said Allerton Avenue as prayed for, and whereas the said alteration with the boundaries and measurements of the said highway and the said way have been filed in the office of the Town Clerk on the second day of March, 1922, and not less than seven days thereafter, to wit, on the eleventh day of March, A.D. 1922, has been accepted by the Town of Hull at a Town Meeting duly called and notified, and whereas it is necessary to acquire land for the purposes of said highway and said way as altered,

That the Board of Selectmen of the Town of Hull, on behalf of said Town of Hull, by virtue of the provisions of statute in that behalf made and provided, for the purposes of a public highway

so far as contained in the limits of said Nantasket Avenue as altered as aforesaid, and of a town way so far as contained in the limits of said Allerton Avenue as altered as aforesaid, take and do hereby take the lands in said Hull hereinafter described and such rights and easements therein as may be necessary for the use thereof for the purposes of a public highway and a town way as aforesaid, said lands being shown on a plan entitled "Plan of proposed alteration of the intersection of lines of Nantasket Avenue and Allerton Avenue, Hull, Mass.", November, 1921. Walter B. Foster, C. E., filed in the office of the Town Clerk of said Town of Hull, a copy whereof is to be recorded in Plymouth County Registry of Deeds with the record of this taking, said lands being supposed to belong to Cora B. Weston and being bounded and described as follows:

Beginning at a point in the Easterly line of Nantasket Avenue to be marked by a stone bound, and thence running on a curve starting northerly and curving to the right of a radius of fifty-seven and seven tenths (57.7) feet through land of Cora B. Weston one hundred one and seventy-one hundredths (101.71) feet to a point in the Southerly line of Allerton Avenue to be marked by a stone bound; thence Westerly by the Southerly line of said Allerton Avenue as it existed prior to this taking to the Easterly line of said Nantasket Avenue as it existed prior to this taking; thence Southerly by said Easterly line of said Nantasket Avenue as it existed prior to this taking to the point of beginning; containing eleven hundred and four (1104) square feet.

For a further identification and more particular description of the land hereby taken, reference is hereby made to said plan hereinbefore referred to and made a part of this description.

And this Board determines that the owner of said property, supposed to be Lora B. Weston, sustains damages in her property to the amount of Five Hundred dollars by the taking for and construction of said public highway and said town way as aforesaid, and awards to said owner said amount therefor.

No trees upon the parcel taken or structures affixed thereto are included in this taking, and the owner of the parcel is allowed thirty days after the date when said land is entered upon for the purpose of constructing said ways as aforesaid to remove the same.

No betterments are to be assessed for the improvements for which this taking is made.

Frask, Isaac L. Frask, Louise L. Ferguson and Eva Albire on the north-easterly side thereof, the land included in said Park Avenue being bounded and described as follows:

The westerly and southerly line begins at the stone bound marking the southerly end of the westerly line of the part of Park Avenue accepted by the Town in 1914, and thence runs south  $0^{\circ} 53' 0''$  east (magnetic declination  $14^{\circ} 45' 0''$  west)

by land of William S. Tracy, by land of Levi B. Walker, by land of Marie C. Paula, by land of William E. Field et ux, and by land of Eva Albers, two hundred seventy-nine and ninety-six hundredths (279.96) feet to a stone bound; thence running on a curve to the right of a radius of five and forty-one hundredths (5.41) feet by said land of Eva B. Albers eleven and fifty-two hundredths (11.52) feet to a stone bound; thence running South  $17^{\circ} 56' 40''$  west thirty and eighty-one hundredths (30.81) feet by Hill Crest Avenue to a point; and thence running south  $52^{\circ} 18' 0''$  east by land of Charles J. Sullivan and by land of Frank Pool, one hundred twenty-four and ninety-three hundredths (124.93) feet to a point.

The easterly and northerly line begins at a point bearing north  $83^{\circ} 49' 0''$  east and thirty and six hundredths (30.06) feet from the stone bound referred to as the beginning of the above described line; and thence runs south  $0^{\circ} 53' 0''$  east by land of the New Rockland Hotel Company, three hundred fifteen and sixty-one hundredths (315.61) feet to a stone bound, and thence runs south  $52^{\circ} 18' 0''$  east by land of said Hotel Company one hundred six and forty-five hundredths (106.45) feet to a stone bound;

And all the land between the above-described lines is hereby taken.

And the land included in said Hill Crest avenue being bounded and described as follows:

The northerly line begins at a stone bound set in the westerly line of Park Avenue, and thence runs north  $58^{\circ} 57' 40''$  west (magnetic declination  $14^{\circ} 45' 0''$  west) by land of Eva Albers, by land of Louise

L. Ferguson; by land of Isaac C. Trask, by land of Bertha C. Trask and by land of Albert W. and F. A. Chilson, two hundred fifty-five and nine hundredths (255.09) feet to a stone bound set in the easterly line of a private way called Rock View Road.

The southerly line is parallel to and thirty feet distant southerly from the above-described northerly line, and all the land between the above-described lines is hereby taken.

For a further identification and more particular description of land hereby taken, reference is hereby made to said plan hereinbefore referred to and made a part of this description.

And this Board determines that no person sustains damages to his property by the taking for and construction of said town ways, and awards no damages therefor.

Any trees upon the parcels taken are included in this taking, but no structures affixed to said parcels are included in this taking, and the respective owners of the parcels are allowed thirty days after the date when said land is entered upon for the purpose of constructing said ways to remove the same.

No betterments are to be assessed for the improvement for which this taking is made.

Voted.

That the following order be adopted.

In Board of Selectmen of The Town of Hull.

March 21, 1922.

Ordered,

Whereas on the petition of Joel Bean, Trustee of the Kenberma Park Trust and others to the Board of Selectmen of Hull petitioning that Stafford Road and Bates Street be laid out and accepted as town ways, notice of the intention of the Selectmen to lay out said ways as town ways has been given as required by law, and a public hearing held on the fourteenth day of February, A.D. 1922, and whereas the said Board of Selectmen have laid out said Stafford Road and Bates Street as town ways as prayed for, and whereas the said laying out with the boundaries and measurements of said ways have been filed in the office of the Town Clerk on the second day of March, 1922, and not less than seven days thereafter, to wit, on the eleventh day of March, 1922, has been accepted by the Town of Hull at a Town Meeting duly called and notified, and whereas it is necessary to acquire lands for the purposes of said town ways as laid out as aforesaid.

That the Board of Selectmen of the Town of Hull, on behalf of said Town of Hull, by virtue of the provisions of statute in that behalf made and provided, for the purposes of town ways take and do hereby take the lands in said Hull hereinafter described and such rights and easements therein as may be necessary for the use therefore for the purposes of town ways as

aforsaid, said lands being shown on a plan entitled  
 "Plan of Bates Street and Stafford Road, Hull, Mass.",  
 January, 1922, Walter B. Foster, C. E., filed in the  
 office of the Town Clerk of said Town of Hull, a  
 copy whereof is to be recorded in the Plymouth  
 County Registry of Deeds with the record of this  
 taking, said lands being all the lands included  
 in Bates Street and Stafford Road as shown on said  
 plan and belonging to owners unknown, but supposed  
 to belong, so far as included in said Bates Street, to  
 the abutters thereon to the middle line thereof, to wit,  
 Elizabeth J. Angell, Fred J. Taber, Edmund M. Warren  
 and Joel Bean Trustees of the Kenbermo Park Trust, and  
 Charles H. Schrader on the northwesterly side thereof,  
 and Maurice E. Gould, Anna M. Fitts, Fred J. Taber,  
 Katherine Davidson, Lois Chester, Emma T. Lately and  
 Lucetta Gangster on the southeasterly side thereof, and  
 supposed to belong, so far as included in said  
 Stafford Road, to the abutters thereon to the middle  
 line thereof, to wit, Bridget A. Foley, Patrick Finn et al.,  
 Susan Morton, Edmund M. Warren and Joel Bean  
 Trustees of the Kenbermo Park Trust, Lyman B. Ogere,

 on the northeasterly side thereof, and Edmund M.  
 Warren and Joel Bean Trustees of the Kenbermo  
 Park Trust, Fred J. Taber, Michael Belknap et al.,  
 Grace E. Pettitt, Maurice E. Gould and Joseph B. Kye  
 on the southwesterly side thereof.

The land included in said Bates Street being  
 bounded and described as follows:

The northerly line begins at a stone bound set in  
 the easterly line of Newport Road and thence runs

north  $76^{\circ} 42' 30''$  east (magnetic declination  $14^{\circ} 45' 0''$  west) by land of Elizabeth J. Angell, by land of Fred J. Taber, by land of Edmund M. Warren and Joel Bean, Trustees, by other land of Fred J. Taber, by land of Charles H. Schrader, by other land of Fred J. Taber and by other land of said Edmund M. Warren and Joel Bean, Trustees, seven hundred thirty-one and sixty hundredths (731.60) feet to a stone bound in the westerly line of Stafford Road.

The southerly line is parallel to and forty (40) feet distant southerly from the above-described northerly line, and all the land between the above-described lines is hereby taken.

The land included in said Stafford Road being bounded and described as follows:

The westerly line begins at a stone bound in the southerly line of Kenbenna Street, and thence runs south  $13^{\circ} 15' 20''$  east, (magnetic declination  $14^{\circ} 45' 0''$  west) by land of Joseph B. ## PROPOSAL

### For the Removal of Garbage, Ashes and Waste Material

Sealed proposals for the collection and removal of garbage, ashes and waste material are invited, and will be received until Monday, April 17<sup>th</sup>, 1922, at four o'clock in the afternoon, at the Selectmen's Office, Electric ave, Nantasket.

The town is divided into four districts, and proposals will be received from any person or party for one or more districts, the proposals for any other district to be separate from the proposal for any other district and no proposal to include more than one district.

Each proposal must be enclosed in a sealed envelope with a certified check for \$200 for each district, payable to and to become the property of the Town of Hull if the proposal after acceptance is not carried out.

Specifications giving the boundaries of districts, the character of the contract and bond to be furnished, and other necessary information may be had upon application to the Chairman of the Board of Selectmen, Clarence V. Nickerson, Main Street, Hull.

The right is reserved by the undersigned to reject any or all proposals, or to accept any proposal, if the undersigned deem it for the best interests of the town so to do.

JOHN SMITH,  
JAMES JEFFREY,

gusta S. Bates, "Ted" Brickett, and

Mrs. Margaret Pierce.

Mr. Anthony Aberdessa, who went to Italy last fall where he took unto himself a wife, is returning here very soon.

Mr. E. C. Noyes who has been ill all winter at the home of Mr. J. D. Bates has removed to Manchester, N. H., where he will be with relatives.

Prospects here are good for the summer.

It is understood that Mrs. C. F. Richardson has sold her old home at West's Corner.

West's Corner has the building microbe also, several houses going up and others being enlarged. Mr. Richard Obergessa is building a two story house.

Mr. and Mrs. James Max will, it is said, purchase Mr. John Manuel's house. Mr. Manuel is making his home in the South with his daughter, Mrs. Joseph McGrath.

Mr. Francis Beal, who has been ill is reported more comfortable.

Mrs. Charles Hunter is recovering from an attack of the "flu." Her friends rejoice.

The foreigners have characteristics and a heritage that make for growth in all that is worth while. A study in Americanization is furnished on Killy street where out of rocks and stones, stubble and underbrush, swamp and marsh, the Italians have built up homes, planted gardens and otherwise improved. Out of nothing but adverse circumstances, by dint of will and aspiration, these people have established homes; homes with all that that implies. Their children are being educated as American citizens. Think what it means! They are bringing their best to us and taking our best. # PROPOSALS

TOWN OF HULL, Massachusetts.—Notice to Contractors.—Sealed proposals for building sewers in the following streets in the town of Hull, Ocean Avenue, Crest Road and in part of Lafayette Road and Spring Street; for making the necessary connection of the new sewer with the present main sewer in Main street; for raising the grade of streets where the plan requires, after the sewer therein is built, and for lowering the grade of streets where the plan requires, before the sewer therein is built, addressed to the Board of Sewer Commissioners of the Town of Hull, Massachusetts, will be received at the office of the Town Clerk, Electric Avenue, Hull, until twelve o'clock noon on Saturday, November 4, 1922. All proposals must be on blank forms furnished by said Commissioners and must be accompanied by a certified check on a national bank or trust company in the Commonwealth of Massachusetts, for the sum of five hundred dollars, payable to and to become the property of the Town of Hull if the proposal which it accompanies is accepted and the bidder neglects or refuses to execute the contract. A sufficient bond, signed by a surety company authorized to do business in the Commonwealth of Massachusetts, for the faithful performance of the contract in the penal sum of three thousand dollars, will be required. Forms of proposal, specifications and forms of contract can be obtained at the office of said Town Clerk. Said Sewer Commissioners reserve the right to reject either, any or all proposals or to accept any proposal. CLARENCE V NICKERSON, JAMES JEFFREY, JOHN SMITH, Sewer Commissioners. October 27, 1922.
